| 5 pm | teams describe their local architecture incl demos (if possible) |
| 6.30 pm | brief guided tour to the Lund Lab |
| 7.30 | dinner |

Friday Jan 27

- | | |
|----------|--|
| 9 am | the federation
- the type of agreements we need to come to
- the architecture of the authentication and authorization system |
| 10 am | metadata specifications |
| 11 am | wrap-up and finalization of reports/deliverables |
| 12.30 pm | lunch |

Friday pm and Saturday am

During this Friday pm and Saturday am we plan to have two parallel activity tracks:

- i) group work furthering objectives 1-4
- ii) training session (DAM-LR personell and external participants, max 36 persons)

Meeting room 429b is reserved for the DAM-LR group from Thursday to Saturday, so that room (and indeed other rooms) are available for us to forward planning and reports during Friday pm and Saturday pm to the extent that we want to do so. The PC-hall in the Lund Lab is reserved for the launching and training event Friday pm and Saturday am.

Launching and training event

Objectives

training session for DAM-LR personell and external participants

a possible local architecture (MPI architecture implemented on Lund machines and with Lund and other data)
